

# nanoUtah 2013

NANOTECHNOLOGY CONFERENCE & EXHIBITION

Nanotech for macro-markets: The interface of research, engineering & industry.

MATERIALS · DEVICES · ENERGY · MEDICINE

SAVE THE DATE: Friday, October 18, 2013

FRIDAY, OCTOBER 18, 2013  
Conference Program

Sorenson Molecular Biotechnology Building  
University of Utah Campus  
Salt Lake City, Utah

The 2013 nanoUtah Conference & Exhibition builds on the rich tradition of past events. Anchored by presentations from national and state leaders in nanoscience and nanotechnology, the conference fosters collaborations and the exchange of knowledge among scientists, engineers, clinicians, industry leaders, and students.

We seek your involvement in any of the following areas:

- **MINI SYMPOSIA:** Participate in skill tutorials on new instrumentation and equipment to see how they can benefit your research.
- **RESEARCH PRESENTATIONS:** Utah researchers, students, and members of the business sector will present 15-minute overviews of their unique capabilities and the problems they face that require nanoscience and engineering solutions, with the potential of facilitating collaboration opportunities for further research, partnered development, and potential commercialization.
- **POSTER SESSION:** Researchers and students are invited to prepare posters to facilitate face-to-face interactions on recent strides in nanotechnology. Students are especially encouraged to enter the student poster competition.
- **EXHIBITION BOOTHS:** Businesses and research centers are invited to exhibit their unique products and facilities and recruit future employees.
- **SPONSORSHIP:** If you are interested in participating as a sponsor, please visit our website or contact Amy VanRoosendaal (amy.vanroosendaal@utah.edu).

Look for registration information by e-mail in the coming weeks, or visit us online at [www.nanofab.utah.edu/nanoutah13](http://www.nanofab.utah.edu/nanoutah13)
