Handling

General advice:
As with all industrial chemicals, use good industrial practices when handling. Avoid eye, skin, and clothing contact. Do not inhale. Do not taste or swallow. Use only with adequate ventilation.

Protection against fire and explosion:
Combustible powder. - Avoid creating dusty conditions. - Grounding is required when emptying into a conductive container. - When flammable solvents are present, the container must be inerted or the system otherwise designed to prevent or contain an explosion. Seek expert advice. In addition, for products packaged in fused-lined (coated) fiber drums, fiber drums with conductive liners, steel drums, steel pails, and Type "C" FIBC (bulk bags), or other conductive the following instructions also apply: - Always ground this package before emptying. The user is responsible for designing the system to handle solid and ensuring proper training of employees in the system's use.

**Storage**

**General advice:**

Keep container tightly closed in a dry, cool and well-ventilated place.

> for industrial use only <

8. Exposure Controls and Personal Protection

**Engineering Controls:**

Work in well ventilated areas. Do not breathe dust.

**Personal protective equipment**

**Respiratory protection:**

Wear a NIOSH-certified respirator as necessary.

**Eye protection:**

Wear safety goggles (chemical goggles) if there is potential for airborne dust exposures.

**Body protection:**

Wear chemical resistant gloves and protective clothing.
