PFA Fluoropolymer Resin

Version 4.0

Revision Date 06/12/2012

Ref. 15000002570

This SDS adheres to the standards and regulatory requirements of the United States and may not meet the regulatory requirements in other countries.

SECTION 1. PRODUCT AND COMPANY IDENTIFICATION

Product name Product Grade/Type	:	PFA Fluoropolymer Resin 316, 340, 340-J, 340T, 340T-J, 340 X, 345, 345J, 345T, 345 X, 350, 350 X, 350-J, 350T, 350T-J, 351, 351JK, 3000 TE7236, TE7244, TE7242, TE7255, TE7261, TE7249
MSDS Number	:	15000002570
Product Use	:	Resin for moulding and/or extrusion
Manufacturer	:	DuPont 1007 Market Street Wilmington, DE 19898
Product Information Medical Emergency Transport Emergency	:	1-800-441-7515 (outside the U.S. 1-302-774-1000) 1-800-441-3637 (outside the U.S. 1-302-774-1139) CHEMTREC: 1-800-424-9300 (outside the U.S. 1-703-527-3887)

SECTION 2. HAZARDS IDENTIFICATION

	ential Health Effects kin		
	Tetrafluoroethyle ne/perfluoroalkylv inylether copolymer	:	Dust may cause: Discomfort, itching, redness, or swelling.
E	yes		
	Tetrafluoroethyle ne/perfluoroalkylv inylether copolymer	:	Dust may cause: tearing, Redness, Discomfort.
In	halation		
			1/9
			175

PFA Fluoropolymer Resin Version 4.0 Revision Date 06/12/2012 Ref. 15000002570 Tetrafluoroethyle : Dust may cause: Respiratory tract irritation ne/perfluoroalkylv The thermal decomposition vapours of fluorinated polymers may cause polymer fume fever with flu-like symptoms in humans, especially when inylether copolymer smoking contaminated tobacco. Symptoms usually appear after several hours and resolve within 1 to 2 davs. Repeated episodes of polymer fume fever may result in persistent lung effects. Polymer may extensively decompose if severely overheated or burned. Inhalation of fluorinated decomposition products may cause lung irritation and pulmonary oedema. Symptoms may be delayed for several hours. Symptoms may be severe or life-threatening. Carcinogenicity None of the components present in this material at concentrations equal to or greater than 0.1% are listed by IARC, NTP, or OSHA, as a carcinogen. SECTION 3. COMPOSITION/INFORMATION ON INGREDIENTS Component CAS-No. Concentration Tetrafluoroethylene/perfluoroalkylvinylether copolymer 26655-00-5 100 % SECTION 4. FIRST AID MEASURES Skin contact : No hazards which require special first aid measures. Wash off with soap and water. Cool skin rapidly with cold water after contact with molten material. Do not peel polymer from the skin. Consult a physician. Eye contact : Hold eye open and rinse slowly and gently with water for 15-20 minutes. Get medical attention immediately. 2/9

PFA Fluoropolymer Re	sin
/ersion 4.0	
Revision Date 06/12/2012	Ref. 15000002570
Inhalation	: Move to fresh air in case of accidental inhalation of fumes from overheating or combustion. Consult a physician.
Ingestion	: Not a probable route of exposure. However, in case of accidental ingestion, call a physician.
ECTION 5. FIREFIGHTING MEA	SURES
Flammable Properties Flash point	: not applicable
Ignition temperature	: 530 - 550 ℃ (986 - 1,022 ℉) Method : ASTM D 1929
Fire and Explosion Hazard	: Hazardous thermal decomposition products: acid fluorides
	Fluorinated compounds
	Carbon monoxide
	Hydrofluoric acid%
Suitable extinguishing media	: Carbon dioxide (CO2), Dry powder, Foam, Water
Firefighting Instructions	 In the event of fire, wear self-contained breathing apparatus. Wear suitable protective equipment. Wear neoprene gloves during cleaning up work after a fire. Protect from hydrogen fluoride fumes which react with water to form hydrofluoric acid.
	ASE MEASURES G MEASURES and HANDLING (PERSONNEL) sections before proceeding with clean AL PROTECTIVE EQUIPMENT during clean-up.
	3/9

PFA Fluoropolymer Resin

Version 4.0

Revision Date 06/12/2012	Ref. 15000002570
Safeguards (Personnel)	: Ventilate the area. Refer to protective measures listed in sections 7 and 8. Material can create slippery conditions.
Spill Cleanup	: Sweep up and shovel into suitable containers for disposal. Clean contaminated floors and objects thoroughly while observing environmental regulations.
Accidental Release Measures	: No special environmental precautions required.
SECTION 7. HANDLING AND ST	DRAGE
Handling (Personnel)	: For personal protection see section 8. Protect from contamination. When opening containers, avoid breathing vapours that may be emanating. Avoid breathing dust. Avoid contamination of cigarettes or tobacco with dust from this material. Provide appropriate exhaust ventilation at dryers, machinery and at places where dust or volatiles can be generated. In case of insufficient ventilation, wear suitable respiratory equipment. Do not use a torch to clean this material from equipment without local exhaust ventilation and respirator. Wash hands and face before breaks and immediately after handling the product. Do not contaminate tobacco products.
Handling (Physical Aspects)	: Take necessary action to avoid static electricity discharge (which might cause ignition of organic vapours).
Storage	 Keep container tightly closed in a dry and well-ventilated place. Protect from contamination. Stable under recommended storage conditions.
SECTION 8. EXPOSURE CONTR	OLS/PERSONAL PROTECTION
Engineering controls	: Ensure adequate ventilation, especially in confined areas. Good general ventilation should be provided to keep dust concentrations below the exposure limits. Local exhaust ventilation should be employed to minimize airborne contamination.
Personal protective equipment

PFA Fluoropolymer Resin

Version 4.0

Revision Date 06/12/2012		Ref. 15000002570	
Respiratory protection		workers are facing concentrations above the exposure limit they must propriate certified respirators.	
Hand protection		nal protection: When handling hot material, use heat resistant gloves., tive gloves (Type : Kevlar [®] - heat resistant, use possible until worn out)	
Eye protection	: Safety g	glasses with side-shields	
Skin and body protection	clothing	tive gloves is a potential for contact with hot/molten material wear heat resistant g and footwear. Ir cleaning of equipment, work area and clothing.	
Exposure Guidelines Exposure Limit Values PFA Fluoropolymer F	Resin	Dust (inhalable and respirable fraction)	
TLV	(ACGIH)	10 mg/m3 TWA Inhalable particles. 3 mg/m3 TWA Respirable particles.	
PEL:	(OSHA)	TWA Respirable particles. 5 mg/m3 TWA Respirable fraction. 15 mg/m3 TWA Total dust.	
Poly(Heptafluoropropyl AEL *	Trifluorovinyl Et (DUPONT)	Ether/Tetrafluoroethylene) 10 mg/m3 8 & 12 hr. TWA Total dust.	
AEL *	(DUPONT)	5 mg/m3 8 & 12 hr. TWA Respirable dust.	
		Limit. Where governmentally imposed occupational exposure limits wh h limits shall take precedence.	ıich
SECTION 9. PHYSICAL AND C	HEMICAL PRO	OPERTIES	
Form	: pellets		
		5/9	

QU POND.

PFA Fluoropolymer Resin

Version 4.0

Revision Date 06/12/2012

Ref. 15000002570

Color	: translucent
Odor	: none
Melting range	: 300 - 310 ℃ (572 - 590 ℉)
Specific gravity	: 2.1 - 2.2
Water solubility	: insoluble
Limiting oxygen index	: > 95 % ASTM D 2863

SECTION 10. STABILITY AND R	EACTIVITY
Stability	: Stable under normal conditions.
Conditions to avoid	: To avoid thermal decomposition, do not overheat. Abnormally long processing time or high temperatures can produce irritating and toxic fumes. Stable under normal conditions.
Incompatibility	: Powdered metals Finely divided aluminium, potent oxidizers like fluorine (F2), and, related compounds
Hazardous decomposition products	: Hazardous thermal decomposition products:: Hydrogen fluoride, Carbonyl fluoride, acid fluorides
Hazardous reactions	 During drying, cleaning and moulding, small amounts of hazardous gases and/or particulate matter may be released. These may irritate eyes, nose and throat. Large molten masses may give off hazardous gases.

SECTION 11. TOXICOLOGICAL INFORMATION

Oral LD50	: > 11,000 mg/kg , rat
Skin irritation	: Slight or no skin irritation, human
Skin sensitization	: Patch test on human volunteers did not demonstrate sensitization properties., human
Repeated dose toxicity	: Oral - feed rat

PFA Fluoropolymer R	lesin
Version 4.0	
Revision Date 06/12/2012	Ref. 15000002570
	No toxicologically significant effects were found.
Further information	
	effects.
SECTION 12. ECOLOGICAL IN	FORMATION
Aquatic Toxicity Fetrafluoroethylene/perfluoroalky	vlvinvlether copolymer
	: The substance is a polymer and is not expected to produce toxic
	effects.
Additional ecological inform	ation : This product has no known eco-toxicological effects.
SECTION 13. DISPOSAL CONS	
Waste Disposal	 Like most thermoplastic plastics the product can be recycled. If recycling is not practicable, dispose of in compliance with local regulations. Incinerate
	only if incinerator is capable of scrubbing out hydrogen fluoride and other acidic combustion products.
F action and a literature	
Environmental Hazards	 Empty containers should be taken to an approved waste handling site for recycling or disposal.
SECTION 14. TRANSPORT INF	ORMATION
Not classified as dangerous	s in the meaning of transport regulations.

SECTION 15. REGULATORY INFORMATION

TSCA Status	: On the inventory, or in compliance with the inventory
SARA 313 Regulated Chemical(s)	: SARA 313: This material does not contain any chemical components with known CAS numbers that exceed the threshold (De Minimis) reporting levels established by SARA Title III, Section 313.
California Prop. 65	: WARNING! This product contains a chemical known to the State of California to cause cancer. Tetrafluoroethylene

SECTION 16. OTHER INFORMATION

	HMIS
Health Flammability Reactivity/Physical hazard Restrictions for use	 2 1 0 Do not use DuPont materials in medical applications involving implantation in the human body or contact with internal body fluids or tissues unless the material has been provided from DuPont under a written contract that is consistent with DuPont policy regarding medical applications and expressly acknowledges the contemplated use. For further information, please contact your DuPont representative. You may also request a copy of the DuPont POLICY Regarding Medical Applications H-50103-3 and DuPont CAUTION Regarding Medical Applications H-50102-3.
Before use also read the foll	registered trademark of E.I. du Pont de Nemours and Company. owing bulletin(s): Fluoropolymer Safe Handling Guide published by the Society of the information contact the local DuPont office or DuPont's nominated distributors.
